Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Election

1. Acknowledgement is made of applicant's Election of claims 1-13 without traverse, filed on July 22, 2005. Claims 14-19 have been withdrawn from consideration. Applicant is requested to cancel non-elected claims 14-19 in response to this office action. Currently claims 1-13 are pending in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by Kikuchi (US_6,450,327 B1).

Claims 1 and 4 are rejected because Kikuchi discloses a color book 1 (see figure 1) comprising a plurality of color cards 2 comprising two or more color samples 4, 5 (see line 4 of abstract) wherein a light color sample 4 expressing the lightest color in the color samples occupies a larger space than the color samples expressing the other colors (see col.3, lines 23-26).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the

subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kikuchi (US_6,450,327 B1) in view of Spangler (US_6,270,123 B1).

6. Claims 5 and 6 are rejected because:

- A. Kikuchi discloses all claim limitations except for the classifying of a plurality of color cards into groups based of various color characteristics for the purpose of creating color cards for matching or selection of desired colors for structures or buildings.
- B. Spangler discloses the classifying of a plurality of color cards into groups based of various color characteristics for the purpose of creating color cards for matching or selection of desired colors for structures or buildings or architectural coatings (see abstract; figures 7A-7C).
- C. In view of Spangler's teachings, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate Spangler's teachings into Kikuchi's color cards so that an improved assortment of color cards can be made available for the purpose of creating color cards for matching or selection of desired colors for structures or buildings.

7. Claims 7-13 are rejected because they consist of different combinations of the limitations recited in claims 1, and 4-6.

Allowable Subject Matter

8. Claims 2-3 have allowable subject matter.
9. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, or, if the rejection to the base claim can be overcome.

Art Unit: 2877

10. Claims 2 and 3 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious a color card with a neutral color sample expressing a neutral color which stands between the light color sample and the deep color sample, in combination with the rest of the limitations of the respective claims.
